

Sprout Pharmaceuticals, Inc. (“Sprout”) is pleased to announce that it has partnered with Globyz Biopharma Services (“Globyz”) to serve as its exclusive Canadian third-party logistics (3PL) provider for Addyi®. In addition to managing Canadian inventory, Globyz will provide comprehensive order-to-cash (O2C) services including order intake, billing, collections, returns, and customer support.

Globyz will manage storage and distribution of Addyi in accordance with applicable Canadian regulatory and GDP requirements. Standard distribution services will include temperature-controlled storage and compliant transportation to ensure product integrity throughout the supply chain. Sprout utilizes Globyz’s transportation network as its primary method to distribute Addyi. Globyz’s transportation network provides white glove delivery of product in temperature-controlled trucks in Greater Toronto Area. For customers not located in GTA Globyz offers 2-day delivery as its standard delivery method.

Addyi finished product will be stored in 30-count pill bottles. Product configuration remains 12 bottles per case. The minimum order quantity is 12 bottles. One pallet is equivalent to 560 cases (6,720 bottles). Orders received prior to the designated daily cut-off time will ship the same business day.

Globyz’s primary Canadian operations are based in Mississauga Ontario. For all order inquiries, account setup, and distribution questions, please contact:
